

# PEAK 2 FIRE

---

## Incident Action Plan

CO-WRF-000236 / P2K4BQ (0215)

Day Operational Period  
**SUNDAY, JULY 9, 2017**  
0600 - 2000

**Rocky Mountain IMT1**  
**Todd Pechota, Incident Commander**  
**Dan Dallas, Deputy Incident Commander**

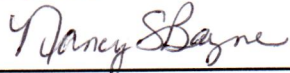

Link To Maps  
GPS: UTM NAD83 ZONE 13N

## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b>		<b>2. Operational Period:</b> DAY	
PEAK 2		Date/Time From: 07/09/2017 0600      SUN	Date/Time To: 07/09/2017 2000      SUN
<b>3. Objective(s):</b>  <b>Strategic Objectives</b>  1. Firefighter and public safety is the highest priority. Plan and execute all suppression activities using sound risk management protocols to manage risk and exposure to firefighters and the public. 2. Keep the fire from impacting Miners Creek to the degree possible to prevent water quality degradation. Miners Creek flows into Lake Dillon, which supplies Denver with drinking water. 3. Minimize fire impacts to Frisco, Breckenridge, and Breckenridge ski area infrastructure, due to high values at risk and disruption of community functions. 4. The fire will attract significant attention from local, state, and national stakeholders. Public information must be prompt, coordinated and accurate to avoid conflicting information. Timely information about smoke impacts will be critical to provide for safety of the public who may be sensitive to airborne particulates. 5. Prevent fire spread west of the Ten Mile Ridge crest.  <b>Tactical Objectives</b>  1. Firelines built to prevent spread north or south should be constructed to the minimum width necessary. 2. There is significant risk posed by falling hazard trees. Ground based firefighting operations should be carefully considered in the beetle killed timber. 3. Consult with the Agency Administrator prior to drastically altering the character of the Peaks Trail and the Continental Divide/Colorado Trail (e.g. by use of mechanical equipment). Repair any fire suppression related damage as quickly as is practical. 4. The watershed supplies drinking water to Denver. Any retardant delivery into streams must be reported and mitigated.			
<b>4. Operational Period Command Emphasis:</b>  Go slow, be deliberate, and don't over-extend.			
<b>General Situational Awareness:</b>  Isolated, high-based thunderstorms. Erratic winds and lightning with thunderstorms.  Snags are an ever-present danger.			
<b>5. Site Safety Plan Required?</b> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>			
<b>Approved Site Safety Plan(s) Located at:</b>			
<b>6. Incident Action Plan</b> (the items checked below are included in this Incident Action Plan):			
<input checked="" type="checkbox"/> ICS 202 <input type="checkbox"/> ICS 207 <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 220 <input checked="" type="checkbox"/> ICS 205 <input checked="" type="checkbox"/> Map/Chart <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents <input checked="" type="checkbox"/> ICS 206		Other Attachments: <input checked="" type="checkbox"/> EVACUATION PROCEDURES <input type="checkbox"/> _____ <input type="checkbox"/> _____ <input type="checkbox"/> _____

## Peak 2 Fire Weather Forecast

**FORECAST NO:** 2  
**PREDICTION FOR:** Peak 2 Fire  
**TIME AND DATE**  
**FORECAST ISSUED:** 1800 07/08/2017

**FORECAST FOR:** 07/09/2017  
**UNIT:** White River National Forest  
**SIGNED:**   
Shawn Jacobs **Incident Meteorologist**

### Weather Discussion:

#### Isolated thunderstorms today—gusty erratic winds with very little rainfall

Lesser cloud and thunderstorm coverage today will lead to warmer temperatures and lower relative humidity. Northwest winds will be breezy on the upper reaches of the fire with the typical terrain/diurnal driven winds elsewhere. Warm once again for Monday, but by mid week temperatures trend cooler with increasing chances for wetting rains.

### FORECAST FOR SUNDAY (07/09/2017):

**Weather:** Cumulus development shortly before noon, 20% chance of thunderstorms in the afternoon  
**Max Temperature:** Below 9500 FT 74 - 78 Above 9500 FT 71 - 75  
**Min Humidity:** Below 9500 FT 20 - 24% Above 9500 FT 17 - 21%  
**20 ft Winds:**  
**Slopes/Valleys:** Diurnally driven upslope/up valley 5 - 8 g12 mph  
**Ridge/mtn top:** Northwest 7 - 14 g20 mph  
**Transport Winds:** Northwest 10 - 20 mph  
**Mixing:** 13000 FT **Haines Index:** 4  
**Chance of wetting rain:** 5%

### TONIGHT:

**Weather:** Isolated shower or thunderstorm early evening, then becoming mostly clear  
**Min Temperature:** Below 9500 FT 42 - 46 Above 9500 FT 44 - 48  
**Max Humidity:** Below 9500 FT near 60% Above 9500 FT near 60%  
**20 ft Winds:**  
**Slopes/Valleys:** Down slope/down valley 3 - 7 mph  
**Ridges/mnt top:** West 5 - 8 mph  
**Transport Winds:** West 6 - 12 mph **Haines Index:** 3  
**Inversion:** Shallow inversion in valleys, thermal belt not anticipated over the burn area  
**Chance of wetting rain:** 0%

### FORECAST FOR MONDAY (07/10/2017):

**Weather:** Becoming partly cloudy, 20% chance of thunderstorms in the afternoon  
**Max Temperature:** Below 9500 FT 74 - 78 Above 9500 FT 72 - 75  
**Min Humidity:** Below 9500 FT 23 - 27% Above 9500 FT 21 - 25%  
**20 ft Winds:**  
**Slopes/Valleys:** Diurnally driven upslope/up valley 4 - 8 mph  
**Ridge/mtn top:** Northwest to West 7 - 10 g15 mph  
**Transport Winds:** Northwest 7 - 15 mph  
**Mixing:** 10,000 FT **Haines Index:** 4  
**Chance of wetting rain:** 5%

### EXTENDED OUTLOOK:

**TUESDAY**—Becoming mostly cloudy, scattered showers and thunderstorms in the afternoon. Isolated wetting rains. Highs in the lower to mid 70s. Minimum relative humidity near 30%. Northwest winds up to 10 mph.

**WEDNESDAY**—Mostly cloudy, showers and thunderstorms possible with wetting rains. Highs in the lower 70s. Minimum relative humidity near 30%. Variable winds up to 10 mph.

## BEHAVIOR FORECAST

**Forecast #3 Incident:** Peak 2

**Prediction for:** Day Operational Period 7/09/17

**Issued:** 7/08/17, 2100 hrs

**by:**  Glen Lewis, FBAN

---

---

### Fire Behavior:

**General:** Due to the weather and fuel conditions on the fire today, active burning on the fire will be very minimal. Fire spread will also be very limited on the fire today. Conditions will be good to sweep the area around the fire for smokes and hot spots. With the conditions from the past several days, it will make favorable conditions for mop-up. Heavy fuels will continue to burn. Remain vigilant to changing conditions when thunderstorms approach your area.

Potential spread rates will be low/moderate under normal conditions but will increase dramatically under gusty winds associated with thunderstorms.

### Fire behavior for timber litter (Fuel model 8 or TL1):

Surface rate of spread	.7-1.5 chains per hour
Surface flame lengths	.5-1 foot
Surface fire size 1 hour	1/10 acre
Probability of ignition	60-70 percent

### Fire behavior for moderate to heavy dead and down (Fuel model 12/sb2):

Surface rate of spread	11 chains per hour
Surface flame lengths	5-7 feet
Surface fire size 1 hour	6 acre
Probability of ignition	60-75 percent

---

### Safety:

**Remember the Standard Fire Order: “Recognize current weather conditions and obtain forecasts.”**

Continue to monitor field weather observations and maintain situational awareness.

## Division/Group Assignment List (ICS 204 WF)

<b>1. Incident Name:</b>				<b>3.</b>			
PEAK 2				<b>I</b>		<b>A</b>	
<b>2. Operational Period:</b> <b>DAY</b>							
Date/Time From: 07/09/2017 0600      SUN		Date/Time To: 07/09/2017 2000      SUN					
<b>4. Operations Personnel</b>							
<b>OPERATIONS CHIEF</b>		ERIC ZANOTTO		<b>BRANCH DIRECTOR</b>		MIKE TOMBOLATO HAL STEVENS (T)	
<b>DIVISION/GROUP SUPERVISOR</b>		FRANK KEELER ANDY WHITE (T)		<b>AIR ATTACK SUPERVISOR</b>		JARED HOHN	
<b>5. Resources Assigned this Period</b>							
Strike Team / Task Force / Resource Designator		LWD	Leader	Number Persons	Drop Off PT./Time	Pick Up PT./Time	
C-7 HC1 LONE PEAK			DARREN O'LOUGHLIN	21

# **Summit County Evacuation Procedures**

## **Evacuation**

- The Incident Management Team (IMT) recommends evacuation areas, identified by creating a boundary within roads or subdivisions.
  - IMT identifies whether evacuations are in a 'pre-evacuation' or a 'evacuation' status
- IMT contacts the Undersheriff, or liaison at the ICP, for all evacuation request. If the IC is unable to immediately contact the law or fire liaisons at the Incident Command Post, contact the Summit County Communications Center 911 Dispatch (SCCC 911) at 970-668-8301 and request that jurisdictional supervisors be contacted with the evacuation requests.
- Law and Fire coordinate evacuations based upon the preplanned Multi-Hazards Evacuation Plan to a predetermined evacuation point.
- Fire and Law IC will request SCCC 911 send a Summit County Alert via CodeRed for the area to be evacuated. The Joint Information Center (JIC) will publish information containing; evacuation orders, coordinated messages, and phone numbers for questions. JIC will follow the Multi-Hazard Evacuation Plan objectives on page 5.
- Local fire departments, law enforcement and structure protection group will conduct door to door evacuations of neighborhoods.
- Local fire departments, law enforcement and structure protection group, as time permits will utilize colored-coded flagging for identifying areas evacuated.
- All evacuees are requested to proceed to the designated evacuation point.

## **Re-Entry**

- The Incident Commander will make an official request for evacuation orders to be lifted, along with identifying the areas that are still in a 'pre-evacuation' status.
- Once the evacuation is lifted, JIC and Law will coordinate a reentry plan in conjunction with the Summit County Office of Emergency Management (SC OEM) and the IMT.

## **Timeframes for Evacuations:**

- **Farmers Korner (Alpensee, Lakeview Meadows, Farmers Grove) 2 Hours**
- **Gold Hill - 2 Hours**
- **Peak 7 – 4 Hours**
- **Silver Shekel – 2 Hours**
- **Highlands - 4 Hours**
- **Bills Ranch – 2 hours**

**PEAK 2 INCIDENT - ICP and BASE  
SUMMIT HIGH SCHOOL  
BRECKENRIDGE, CO**

**LOGISTICS INFORMATION**

**7/8/2017**

**Quiet Hours:** 2200-0500

**Medical:** (East end of school hallway) 24 hours.

**Shower Hours:** Nu Way  
(South parking lot)

General 0500-2300  
Cleaning 1200-1400

**Handwash Stations:** Frosty's – Overhead Camping 24 hours  
La Pew – Crew Camping 24 hours

**Meal Hours:** Houston's Too Breakfast 0500-0900  
(South parking lot) Dinner 1730-2200

**Lunch, Ice, Drinks:** Reefer trailer 0530-2200

**Supply Hours:**

Ordering (Room 1317) 0600-2200  
Cache Checkout and Returns (south parking lot) 0600-2200

**Ground Support :** (East end of school hallway) 0600-2200

**Vehicle Fueling:**

Macro Fuel Tender: in the back of 1790 Airport Road  
Breckenridge, CO Parking Lot 0700-1900  
1930-2100

Local Fuel stations in Frisco and Breckenridge

**Weed Wash:** Outback : same location as fuel tender 0700-1930

**Miscellaneous Fuel:** Chain saw, pump, drip torch fuel. See Ground Support. Please don't mix any fuel until ready to use it, and if you mix it, remember to label it with the mix ratio. Please use all of the mixed fuel, we don't want it back mixed!

# Restock/Replacement Procedures for Government Property

## Gone is the old culture!

Gone are the days when we used to use fire suppression funds from project fires to repair and replenish our inventory and gear. No longer can we take advantage of project fires in this manner according to NWCG. They have told us that since most items are provided by home units using preparedness funds, **we cannot use the project fire codes to replace or repair anything damaged due to normal wear and tear.** We are told that the home unit needs to plan for and replace things that are just wearing out, not the fires.

## Specific Events

If there is a specific event on our incident that causes more than normal wear and tear (such as a wind event destroying tents) we will work with you on getting the correct documentation so that it can be replaced or repaired. Be aware, however, that further direction is that **we cannot replace or repair non-standard cache items.** In other words, if your tent is destroyed with a wind event we can give you another tent, but it will be one that is available from the cache and might not be exactly what you had before if you didn't carry the standard tent. This is true for such things as Kevlar pants (you'd get the standard greens from Supply), sleeping bags (again – cache bags), packs (no Eagle packs, just the standard), etc. **We can ensure that the correct documentation is done to turn in to your home unit for consideration of replacement of non-cache items from home.**

## So what do you need to do to get what you need?

First of all, don't wait until the last minute to say you need something replaced. If your crew used up their MREs and you know you need to replenish that stock before you leave, go talk to the folks in Supply and get the stock replenished right away. If you are going to be on the incident for a while we may be able to order in things that you need (such as chainsaw parts) if we don't have them already on hand. Then you can be demobed ready to hit the ground running again. (Keep in mind, though, that we won't build you a new chainsaw from parts, but will take care of what we fairly feel was impacted by the incident.)

If equipment and supplies **are available** at the incident for replacement, the request is filled at the Incident Supply Unit.

If equipment and supplies **are unavailable** at the incident for replacement, **and the requesting resource is not being immediately demobilized**, the Supply Unit will place a resource order for needed items through appropriate channels to the cache. The order will be shipped to the incident and replacement will take place at the Supply Unit.

If equipment and supplies **are unavailable** at the incident for replacement, **and the requesting resource is being demobilized**, an Incident Replacement Requisition will be completed and forwarded to the cache.

## Getting questions from Supply about whether your needs are legitimate?

Good! This means they are doing the job that NWCG has asked them to do. However, we don't want to make this an ordeal for you, and they should be nice about it. You do need to submit your requests in writing on a General Message Form (213). Have your DIVS sign the 213 to verify that you did the work or were put in the circumstances to create the need. This is how we determine what is fair. If you have questions, please don't hesitate to consult with the Logistics Chief.

## How about the accountable stuff?

If you lose, damage or destroy a piece of government property on the incident, you have to go through the same hoops that you would back home to report it. First of all, **do not wait to report it!** Whether the property is assigned to you from home (such as a radio) or whether it was assigned to you at the fire (such as a radio or pump or chainsaw) you are responsible for it and must do the same paperwork. As the person responsible for the property you must **document the loss or damage on a Property Loss or Damage form.** (We use an AD-112 or OF-289, available from Supply). **You and your supervisor** (DIVS in most cases) and any witnesses must **document facts and circumstances on the form, and turn in the damaged or destroyed item.** The Incident Commander or Logistics Section Chief shall review, sign, and take any follow-up action. Type I and Type II incident replacement approvals are limited to the Incident Supply Unit Leader, Logistics Section Chief, Incident Commander, and Agency Administrator. Seldom will one of those folks approve anything that is not **verified in writing by the DIVS** or higher level Operations overhead.

If you come in at the end of the fire when everyone is demobing and say that your crew lost a couple of radios a few days ago and also damaged a GPS unit during IA, it's not going to look good and it will be difficult to round up the people and witnesses necessary to get the paperwork done in a reasonable amount of time to demob. Please do not wait until the end to report such loss or damage. It must be taken care of when or shortly after it occurs in order to get the witness statements, etc – not at demob.

### Team Ordering/Timeline Process:

1100 - Last call to change spike camp resource hot food location.  
1600 - *DIVS* to have next day's resource order ready for Planning OPS.

- All crew level orders will be placed through *DIVS* or Branch.
- *DIVS* or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

### GPS Datum: NAD 83- Degrees, Decimal, Minutes (DDMM.MM)

#### Definitions

**FOB**-Forward Operating Base is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

**Line Spike Camp**-Managed by Operations at the *DIVS* level; mobile, short duration and self- sufficient.

**Spike Camp**-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

**Emergency Medevac**- Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's.  
Communications to clear command channel radio traffic.

**Medical Transport**-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.

## HEALTH AND SAFETY MESSAGE

***SAFETY*** starts with ***YOU***

We are **ALL** accountable for **SAFE** behaviors

INCIDENT: Peak 2

DATE: 7/9/17

TIME: Day and Night

### **Major Hazards and Risks:**

- \* Situational Awareness
- \* Complacency
- \* Driving
- \* Mission Creep

Fire Order of the Day –*Give clear instructions and insure they are understood*

### Narrative:

- **SITUATIONAL AWARENESS** - *If your assignment does not have purpose and meaning and does not support meeting the objectives you should re-access the assignment.*
- Complacency, more times than not, a safety first attitude can elevate most challenges
- Driving- Increase in public traffic. Wildlife will be moving throughout the day.
- Mission Creep: If you question what you're doing? Maybe you should not do it!

### **9 Line**

- Review with your crews
- Understand your roll
- Get the closest EMT to the scene
- Notify Division Supervisor

Incident Safety Officers: Keith Long SOF1, Dave Vitwar SOF1, Larry Klock SOF2, Bob Greenfield SOF2

# MEDICAL PLAN (ICS 206 WF)

Medical Incident Report					
<b>FOR ALL MEDICAL EMERGENCIES: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.</b>					
<b>Use items one through nine to communicate situation to communications/dispatch.</b>					
<b>1. CONTACT COMMUNICATIONS/DISPATCH</b> <i>Ex: "Communications, Div. Alpha. Stand-by for Priority Medical Incident Report." (If life threatening request designated frequency be cleared for emergency traffic.)</i>					
<b>2. INCIDENT STATUS:</b> <i>Provide incident summary and command structure.</i>					
<b>Nature of Injury/Illness</b>			<i>Describe the injury (Ex: Broken leg with bleeding)</i>		
Incident Name			<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>		
Incident Commander			<i>Name of IC</i>		
Patient Care			<i>Name of Care Provider (Ex: EMT Smith)</i>		
<b>3. INITIAL PATIENT ASSESSMENT:</b> <i>Complete this section for each patient. This is only a brief, initial assessment. Provide additional patient info after completing this 9 Line Report.</i>					
Number of Patients:	Male / Female	Age:	Weight:		
Conscious? <input type="checkbox"/> YES <input type="checkbox"/> <b>NO = MEDEVAC!</b>					
Breathing? <input type="checkbox"/> YES <input type="checkbox"/> <b>NO = MEDEVAC!</b>					
Mechanism of Injury: <i>What caused the injury?</i>					
Lat/Long (Datum WGS84) <i>Ex: N 40° 42.45' x W 123° 03.24'</i>					
<b>4. SEVERITY OF EMERGENCY, TRANSPORT PRIORITY</b>					
SEVERITY			TRANSPORT PRIORITY		
<input type="checkbox"/> <b>URGENT-RED Life threatening injury or illness.</b> <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i>			Ambulance or MEDEVAC helicopter. Evacuation need is <b>IMMEDIATE.</b>		
<input type="checkbox"/> <b>PRIORITY-YELLOW Serious Injury or illness.</b> <i>Ex: Significant trauma, not able to walk, 2° – 3° burns not more than 1-2 palm sizes.</i>			Ambulance or consider air transport if at remote location. Evacuation may be <b>DELAYED.</b>		
<input type="checkbox"/> <b>ROUTINE-GREEN</b> Not a life threatening injury or illness. <i>Ex: Sprains, strains, minor heat-related illness.</i>			Non-Emergency. Evacuation considered <b>Routine of Convenience.</b>		
<b>5. TRANSPORT PLAN:</b>					
<b>Air Transport:</b> (Agency Aircraft Preferred)					
<input type="checkbox"/> Helispot		<input type="checkbox"/> Short-haul/Hoist		<input type="checkbox"/> Life Flight <input type="checkbox"/> Other	
<b>Ground Transport:</b>					
<input type="checkbox"/> Self-Extract		<input type="checkbox"/> Carry-Out		<input type="checkbox"/> Ambulance <input type="checkbox"/> Other	
<b>6. ADDITIONAL RESOURCE/EQUIPMENT NEEDS:</b>					
<input type="checkbox"/> Paramedic/EMT(s)		<input type="checkbox"/> Crew(s)		<input type="checkbox"/> SKED/Backboard/C-Collar	
<input type="checkbox"/> Burn Sheet(s)		<input type="checkbox"/> Oxygen		<input type="checkbox"/> Trauma Bag	
<input type="checkbox"/> Medication(s)		<input type="checkbox"/> IV/Fluid(s)		<input type="checkbox"/> Cardiac Monitor/AED	
<input type="checkbox"/> Other (i.e. splints, rope rescue, wheeled litter)					
<b>7. COMMUNICATIONS:</b>					
Function	Channel Name/Number	Receive (Rx)	Tone/NAC *	Transmit (Tx)	Tone/NAC *
<i>Ex: Command</i>	<i>Forest Rpt. Ch. 2</i>	<i>168.3250</i>	<i>110.9</i>	<i>171.4325</i>	<i>110.9</i>
COMMAND					
AIR-TO-GRND					
TACTICAL					
*(NAC for digital radio system)					
<b>8. EVACUATION LOCATION:</b>					
Lat/Long (Datum WGS84) <i>EX: N 40 42.45' x W 123 03.24'</i>					
Patient's ETA to Evacuation Location:					
Helispot/Extraction Size and Hazards:					
<b>9. CONTINGENCY:</b>					
<b>Considerations:</b> <i>If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead...</i>				<b>REMEMBER:</b> <span style="color: red;">Confirm ETA's of resources ordered Act according to your level of training Be Alert. Keep Calm. Think Clearly. Act Decisively.</span>
